

## **Springwood Community Liaison Committee**

### **Opportunity to contribute to the successful integration of the project into the community**

wpd Canada is in the process of establishing a Community Liaison Committee (CLC) for its 4 turbine, 8.2 MW Springwood Wind Project near Belwood. Residents within 1 km of the project location, interested in working with wpd to advance the understanding of the project within the community, are invited to submit an application to participate.

The goal of the Community Liaison Committee will be to communicate project milestones, updates, issues, issue resolutions and mitigation strategies. Responsibilities for the individuals who become part of the committee will include communicating with friends and neighbours, provide updates and seek feedback. Essentially, members of the CLC will act as a conduit for concerns from the community, and will raise issues on their behalf while providing project information back to the community. Meetings will be open to the general public for observation.

If you are interested in becoming a member of the CLC for Springwood, please submit an application by January 4th, 2013. To obtain a copy of the application form please contact Khlaire Parré or download the application at <http://canada.wpd.de/ca/projects/in-canada/springwood.html>. We will then provide additional information on the next steps in the process.

The initial meeting, which will establish the Terms of Reference and functional guidelines for the Committee, will be held on January 17th, 2012, at the Wellington County Museum and Archives, 0536 Wellington Rd 18, Fergus ON N1M 2W3 from 5:30 -7:00 pm.
